

# The Staff Portal - An Overview

Last Modified on 03/09/2021 9:51 am EST

Permissions control the ability of your Users to see certain data and take specific actions. Before moving forward review [Staff Portal User Permissions](#).

The Staff Portal provides a secure place for your staff to: view their class and events schedules, record time worked in the time clock, record student attendance or skills/levels, view Lesson Plans, create and view Resources.

- ★ **Be Secure** - The Staff Portal is isolated from your Jackrabbit database which allows your staff to manage their classes and time outside of Jackrabbit without needing access to sensitive data such as contact and financial information.
- ★ **Be In Touch** - The Staff Portal is a great way to communicate with your staff. Use the *Staff* and *Department News* to broadcast messages in the Staff Portal. A login message can be entered into an individual staff member's record and it will display on their News tab in My News.
- ★ **Be Mobile** - Jackrabbit's Staff Portal is 'responsive' which means it detects the size of the device that is being used and will adjust to fit the screen size. This makes using the Portal much easier on a smart device!

## Set Up and Explore the Staff Portal

Why should you use the Staff Portal for your organization? Let's look at setup, functionality, and reporting options available to you with the Staff Portal.
