

Website / Online Integration - An Overview

Last Modified on 12/08/2020 1:22 pm EST

Watch a (1:56) video tutorial for an Online Integration Overview

Jackrabbit offers four online modules that you can integrate with your website. We have created a [checklist](#) for you to help you plan your integrations. Please download, print, and review so you can familiarize yourself with Online Integration and understand how they can work for your business.

All of these modules are included in your monthly Jackrabbit subscription:

Web Registration Form	Allow new customers to create an account online. Families can register multiple students in multiple classes on a customized one-page form which includes legal agreements and payment information. Download, print, and review Online Registration Form - Checklist for a Successful Rollout .
Parent Portal	Offer your existing customers the ability to manage their accounts online. You control the options available such as the ability to enroll students, make payments, etc. Download, print, and review Parent Portal - Checklist for a Successful Rollout .
Class Listings Tables	Display your class offerings in real-time on pages in your own website. Customize these tables to allow enrollment directly from the tables for new or returning customers. Download, print, and review Class Listings Tables - Checklist for a Successful Rollout .
Events Calendar	Take your special events online with an integrated calendar offering online registration. Download, print, and review Online Events Calendar - Checklist for a Successful Rollout .

Code and URL Links

In order to integrate (display and use) the online modules on your website, Jackrabbit provides code and links that you (or your webmaster) place into your web editor. As long as your website will allow you to LINK to another external webpage, you can use all four modules.

Note: The Class Listing module is designed to be scripted into your own webpage, but, if your website doesn't allow scripting, you can still use an alternate version of it.

In all of the following links below, replace 'XXXXXX' with your Organization ID.

Online Integration	Code & URL Links
Online Registration Form	https://app.jackrabbitclass.com/regv2.asp?id=XXXXXX
Parent Portal	https://app.jackrabbitclass.com/jr3.0/ParentPortal/Login?orgID=XXXXXX
Class Listings Tables	<p>Javascript for embedding tables:</p> <p>For linking to a new page:</p> https://app.jackrabbitclass.com/jr3.0/Openings/OpeningsDirect?OrgID=XXXXXX
Events Calendar	https://app.jackrabbitclass.com/eventcalendar.asp?orgid=XXXXXX

Remember, each website is unique and it is your webmaster who can add "flair" to your integrations. Also, Jackrabbit has an Integration Team that can assist you or your webmaster with set up on any of these modules - for free! (See the [Integration Assistance](#) page after you have reviewed the FAQs for the particular module).

If you are using Jackrabbit's **Staff Portal**, you can place a link on your website to let your Staff log in and manage their classes using this code:

<https://app.jackrabbitclass.com/jr3.0/TimeClock/StaffLogin?orgId=XXXXXX>.
