

Per-Day Classes and Online Registration

Last Modified on 11/03/2020 12:30 am EST

If you use "Per-Day" classes, you can also offer the choice of days for new customers using the web Registration Form. This is especially useful to week-long Summer Camp classes where you offer a selection of which days during that week the student wants to attend.

For a full explanation of setting up and using "Per-Day" classes, see the [Adding Per-Day classes](#) page in this guide.

In this example of a Camp Week where the parent can attend any combination of days, notice the class is set up as a week-long Per-Day class and the maximum size is set at 8 students each day.

Class Name: Camp Princess: Week 1: June 1-5

Location: CONCORD (Class only available to Students from same Location)

Status: Active (If Active, will be billed during Post Tuition Fees) Per-Day: Yes

Meets: Mon Tue Wed Thu Fri Sat Sun

Max size = 8 per day.
In this example, Wed and Fri are already full (have 0 openings for those days).

If this class is selected online via the Registration Form, it will allow the parent to select which days to attend. If the day has 0 openings, it will say "Full" and can not be selected. However, if you use online Waitlisting, it will allow them either select available days to be enrolled into, OR, to select to be Waitlisted for any full days.
