Music studios often offer private lessons with a maximum enrollment of one student per class. Jackrabbit's class listings can accommodate that requirement.

**B's Music Shop** - <http://BsMusicShop.com> scatters their class listings among many pages which also feature the instructor's bio.

- From the Home page, Choose Lessons. Then pick an Instrument (or pick "All", the last one), and you can see that Instructor's Class availability as well as a short video introducing each Instructor. Once a time slot is filled, it no longer appears in the class listing.
