

# Search for an Email Address

Last Modified on 11/03/2020 12:33 am EST

Search for specific email address or a specific group of email addresses using the *Global Search / Quick Search* field. Include an @ symbol in the search to prompt Jackrabbit to search email addresses.

Example: Display a list of all @email.com email addresses by searching **@email.com**.

The screenshot shows the Jackrabbit Executive Dashboard. At the top, there is a search bar with the placeholder text "Search (Name,email,phone)". The text "@email.com" is entered into this field, and a yellow highlight is placed over the entire search bar area. To the right of the search bar is a "Go" button. Further right is a "Search Classes:" label followed by a small input field and another "Go" button. Below the search bar is a blue navigation bar with the following links: Families, Students, Classes, Events, Staff, Transactions, Store, Reports, and Staff. The Jackrabbit logo is on the left side of the dashboard, and the text "Executive Dashboard" is on the right. At the bottom left, there is a "Refresh Dashboard" button with a circular arrow icon. At the bottom right, there is a "Weekly View" button with a calendar icon.
