

List Active / List All Families Reports

Last Modified on 11/03/2020 12:33 am EST

List Active Families and *List All Families* are located under the *Families* menu in the menu bar.

Point to **Families** and click **List Active Families** to create a list of any active family in your database. A family is considered Active when at least one student in the family is enrolled in at least one Active class.

Point to **Families** and click **List All Families** to return a list of all families (in your database - active and inactive). Note: This does not include families moved to the [Lead File](#).

The screenshot shows the top portion of a web application interface for a family list. It includes a header bar with navigation and action buttons, and a table with columns for family information. Five yellow callout boxes provide instructions:

- move back or forward through multiple pages**: Points to the pagination controls showing 'Page 1 of 26'.
- Show all records on one page**: Points to the '+ Show All' button.
- Print, Export, or Refresh the list**: Points to the 'Print', 'Export', and 'Refresh' buttons.
- customize the columns you want hidden**: Points to the 'Show/Hide Columns' button.
- Search any column by typing in the Search field**: Points to the search input fields in the table header.
