

# Restore an Archived Class

Last Modified on 11/03/2020 12:35 am EST

Archived Classes can be restored to their original status if needed. Restoring a class also restores the enrollment for the class.

1. Point to **Classes** in the menu bar and click **List Archived Classes**.
2. Use the *Search Criteria* to narrow your search if needed.
3. Restore an individual class by clicking the **Restore** link to the far right of the specific class.
4. Restore multiple classes by checking the boxes to the left of each class and clicking the **Restore Checked Classes** button.
5. Restore all classes by checking the **All** checkbox and clicking the **Restore Checked Classes** button. (If classes take up several pages, be sure to click **Show All** before checking the **All** checkbox.)

**List Archived Classes**

[Return](#) [Restore Checked Classes](#) [Help](#) [Support](#) [Send Idea](#)

check "All" to select the entire page or click "Show All" and then check "All" to select all classes.
