

# User Permissions for All Classes (Classes Menu)

Last Modified on 12/05/2023 2:31 pm EST

There are several User Permissions related to **All Classes** from the *Classes (menu)* and the various options on that page.

User Permissions play a crucial role in protecting your data by controlling who can access, modify, or perform specific actions in your system. Review [Protect Your Account - User Permission Guidelines](#) for more information

To adjust a User's permissions, go to the Gear  icon > **Settings** > **Users & Permissions** > **User IDs** (click on a UserID) > **User Permissions** (left menu) to set the permissions. ***Note:** If a User is logged in when changes are made to their permissions, they'll have to log out and back in for the changes to take effect.*
