

User Permissions for All Classes (Classes Menu)

Last Modified on 03/23/2021 1:39 pm EDT

There are many User Permissions related to **All Classes** from the *Classes (menu)* and the various options on that page.

Go to the **Tools (menu) > Manage Users & Permissions > User IDs** (click on a UserID) > **User Permissions** (left menu) to set the permissions. **Note: If the User is logged in when changes are made to their permissions, they'll need to log out and then back in before the changes will take effect.**

Expand each section to see the related required permissions.

Expand/Collapse
All

Access the All Classes Page

Category		User Permission	Controls
