Streamline Data with the Business Intelligence Dashboard

Jackrabbit sorts your business data and streamlines it into one comprehensive Business Intelligence Dashboard (BID) using the powerful Microsoft Power BI platform.

⭐ Eliminate the need to run tons of separate reports.

⭐ Data is gathered in one location to present your Key Performance Indicators (KPIs).

⭐ Use your own valuable data to make business decisions for your organization.

⭐ Track progress, monitor business performance, stay on top of trends, and identify areas of growth and improvement.

The BID is included with top-tier subscriptions. Otherwise, there is a nominal monthly fee for the upgrade. Once added, the BID is accessible on the **Executive Dashboard** when you log in to Jackrabbit.

If you have multiple Jackrabbit accounts, the Business Intelligence Dashboard is the only place to compare data between multiple accounts. And if you manage one or more locations within one account, you'll find these reporting dashboards go above and beyond what is available to you now.

Are you interested in learning more about the Business Intelligence Dashboard? Email **dashboard@jackrabbittech.com**, and we can answer any questions you have.
